

MONTSERRAT FUENTES

Dean and Professor

Professional Address

Virginia Commonwealth University
College of Humanities & Sciences
828 West Franklin Street, Box 842019
Richmond, Virginia 23284

Email:

mfuentes@vcu.edu

Phone:

(804) 828-1674

Education

National Center for Atmospheric Research Postdoc 1999 Environmental Sciences

University of Chicago, Chicago, IL

Ph.D. 1998 Statistics

University of Valladolid, Spain

B.S. 1994 Mathematics and Statistics
(Extraordinary award of Graduation)

University of Valladolid, Spain

B.S. 1994 Music and Piano

Research Interests

Big data, brain imaging analysis, statistics for spatial data, uncertainty analysis, computer models, interdisciplinary applications in neurosciences, environmental and health sciences. These data analytical advances are motivated and implemented to address scientific and societal problems in brain imaging, weather forecasting, climate change, air pollution and human health effects from pollution, as well as studies of pregnancy and pregnancy outcomes for both the mother and child.

Professional Experience

Virginia Commonwealth University

College of Humanities and Sciences

2016 -

Dean

2016 -

Full Professor of Statistics (College of Humanities and Sciences),
Full Professor of Biostatistics (School of Medicine)

North Carolina State University

Department of Statistics

2011 - 2016

Department Head

2015 - 2016

James M. Goodnight Distinguished Professor of Statistics

2008 - 2016

Full Professor (tenured)

2003 - 2008

Associate Professor (tenured)

1999 - 2003

Assistant Professor

North Carolina State University

Department of Marine, Earth & Atmospheric Sciences

2003 - 2016

Associate status

STATMOS

2011 - 2016

Center Director

(NSF-DMS, "Collaborative Research: RNMS Statistical methods
for atmospheric and oceanic sciences")

Website: www.statmos.washington.edu

The Environmental Protection Agency (EPA)

Atmospheric Modeling Division

1999 - Present

Visiting Scientist

National Center for Atmospheric Research

1998 - 1999

Postdoctoral Research Scientist

Lucent Technologies, Bell Labs, New Jersey.

Summer 1996

Visiting Scientist

Summer 1995

Visiting Scientist

AT&T. Bell Labs, New Jersey.

Fall 1995

Visiting Scientist

Joint Research Center, European Union, Italy.

1994 Visiting Scientist

Professional Organization Service & Leadership

National Academy of Sciences

2015 - Intelligence Science and Technology Experts, National Research Council (NRC)
2015 - 2017 Committee on the Review of the Department of Veterans Affairs Airborne Hazards and Open Burn Pit Registry
2012 - 2017 Committee on Applied and Theoretical Statistics, Second term
2007 - 2008 Committee on Ozone Mortality Risk Reduction Benefits, NRC

Editorial Boards

2016 - 2018 **Editor**, *Journal of the American Statistical Association, Applications and Case Studies, (JASA-ACS)*, (Considered a top journal in Statistics and the flagship journal of the American Statistical Association)
2016 - 2018 **Coordinating Editor** of *JASA*
2015 **Founder**, *Advances in Statistical Climatology, Meteorology and Oceanography (ASCMO)*, international open-access. Sponsored by the STATMOS network
2011 - 2015 **Editor**, *Journal of the Agricultural, Biological, and Environmental Statistics (JABES)* (second term)
2009 - 2012 **Associate Editor**, *JASA-ACS*
2006 - 2011 **Associate Editor**, *Annals of Applied Statistics* (second term)
2003 - 2011 **Associate Editor**, *Environmetrics* (third term)
2003 - 2010 **Associate Editor**, *Biometrics* (third term)

Government

2010 - 2011 US EPA. Science Advisory Board, Trichloroethylene (TCE) Panel
2009 – 2015 National Children Study. iSMOC committee
2007 Department of Justice. (U.S. v. American Electric Power)
Expert witness and consultant
2006 - 2007 US EPA. Ethylene Oxide Review Panel
2005 - 2009 NIH. Member of the Biostatistical Methods and Research Design (BMRD) Study Section
2004 - 2009 US EPA. Science Advisory Board
Integrated Human Exposure Committee (second term)

Professional Societies

2015 - 2016	Special Committee of the Board of Directors on the <i>Role of Statistics in Data Science</i> , American Statistical Association
2015 - 2016	Chair , Environmental Statistics Section of the International Society for Bayesian Analysis
2013 - 2016	Steering committee of the National Consortium of Data Science (NCDS)
2013 - 2014	Chair , Computing and Graphics Section of the American Statistical Association (ASA)
2012 - 2015	Officer , Academic Representative, ASA Academic Caucus
2009 - 2012	Board of Trustees of the National Institute of Statistical Sciences
2009 - 2012	Member , ASA Climate Change Policy Advisory Committee
2009 - 2011	Officer , ASA Committee on Federally Funded Research
2009 - 2010	Officer , Council of Sections. ASA Section on Statistical Computing
2007 - 2010	Member , Institute of Mathematic Statistics (IMS), Council
2007 - 2008	Treasurer and secretary , ASA Bayesian Statistical Science Section
2004 - 2012	Board of Directors of the International Environmetrics Society (second term)
2003 - 2006	Regional Advisory Board of the Eastern North American Region of the Biometric Society (ENAR)

International Advisory Boards

2015 -	Scientific Advisory Board of the Engineering and Physical Sciences Research Council (EPSRC), WEFWEBs project at University of Glasgow, Scotland
2014 -	Scientific advisory committee of the ARC Centre of Excellence for Mathematical & Statistical Frontiers (ACEMS), The University of Melbourne, Australia
2008 - 2016	Scientific Advisory Committee of Health Canada

University Committee Service & Leadership

Virginia Commonwealth University

2018 – 2019	VCU University Council
2018 – 2019	VCU Academic Affairs and University Policy Committee
2019 – 2020	Faculty Mentor of Grace Harris Leadership Training
2016 - 2018	Co- Chair, University Strategic Planning
2016 - 2019	Member, University Budget Committee
2016 - 2019	Steering Committee for Budget Redesign

North Carolina State University

2015 - 2016	Chair, Search Committee for the Head of the Department of Marine, Earth, and Atmospheric Sciences
2015 - 2016	Member, Search Committee for the Vice Chancellor for Business and Administration
2016 - 2016	Graduate School Fellowships and Awards Selections Committee
2016 - 2016	Advisory committee, Experiential Learning Institute
2015 - 2016	Member, Committee on Guidelines for Graduate Student Support Plan
2015 - 2016	Member, Search committee for the Vice Chancellor for Research
2014 - 2016	Faculty Liaison, Office for Institutional Equity and Diversity (second term)
2014 - 2015	Chair, Academic Policy Committee
2014 - 2015	Member, Steering Committee of Associate Deans for Academic Affairs
2014 - 2015	Member, Steering Committee of Academic Deans
2013 - 2015	Chair of the NC State Academic Policy committee
2013 - 2015	Member, Faculty Senate Executive Committee
2012 - 2015	Member, University Budget Committee (chaired by the Provost)
2012 - 2013	Member, Senate Personnel Policy Committee
2012 - 2013	Member, NC State Strategic Plan Implementation Committee
2011 - 2015	Faculty Senator (elected for a second term)
2010 - 2014	Senior Leader, NSF ADVANCE program

Leadership Training

2013 - 2016	Graduate level courses in <i>Leadership, Work Psychology, and Work Motivation</i> . NC State, Psychology Department (Industrial Organizational)
-------------	--

Participant in the following Leadership programs:

2014 - 2016	Food Systems Leadership Institute
2013 - 2014	North Carolina State. Strategic Transformational Leadership Program
2013 - 2016	UNC Leadership workshop
2012 - 2016	Shelton Leadership Forum
2010 - 2012	NC State. NSF ADVANCE Leadership Program

Professional Leave

Fall 2008	Visiting faculty Statistics Department, Duke University, Durham, NC.
Fall 2003	Visiting faculty The Center on Global Change, Duke University, Durham, NC
Fall 1998	Visiting scientist (postdoc) The National Center of Atmospheric Research <i>Geophysical Statistics Project</i> , Boulder, CO.

Honors & Awards

2017	Medal of Distinguished Achievement by the American Statistical Association, Environmental Statistics Section. For major statistical methodology contributions, leadership and mentoring roles.
2016	<i>NC State D.D. Mason Award</i> . The award recognizes Fuentes's outstanding contributions as department head from 2011 to 2016.
2013	<i>NC State Equity of Women award</i> , for major contributions to the equity and well-being of women.
2012	<i>Scientific and Technological Achievement Award</i> offered by the United States Environmental Protection Agency for the development of an air quality model evaluation framework that fosters scientific credibility for model applications
2012	Best <i>Biometrics</i> paper of the year
2010	Best <i>International Journal of Environmental Research and Public Health</i> paper of the year
2008	American Statistical Association (ASA) fellow for outstanding research in spatial statistics
2003	Abdel El-Shaarawi Young Researcher's Award in recognition of outstanding contributions to environmetric research

Professional Organization Memberships

Member-elect of the International Statistical Institute (ISI)
American Statistical Association (ASA)
Institute of Mathematical Science (IMS)
Eastern North American Region of the Biometric Society (ENAR)
American Meteorological Society (AMS)
The International Environmetrics Society (TIES)
The International Society for Bayesian Analysis (ISBA)

Administrative Experience

Dean and Professor of Statistics in College of Humanities and Sciences. 2016 – Present

The College of Humanities and Sciences is the largest unit at Virginia Commonwealth University in terms of enrollment- more than 15,000 students; approximately 500 full-time faculty members and 230 part time; representing 50% of the total credit hours, and 60% of the undergraduate credit hours taught at VCU. The College also has the largest amount of externally funded research on VCU's Monroe Park Campus. The College houses two professional schools (The Robertson School of Media and Culture, and The School of World Studies), 15 departments, ROTC, and 3 other degree granting undergraduate academic programs (Liberal Studies for Early and Elementary Education; Interdisciplinary Science Program; and Sciences, Technology and Society). The College is the administrative unit for 85 undergraduate majors/concentrations, 5 certificate programs, 12 Master's programs, 10 PhD programs, and 5 cross-disciplinary Ph.D. programs (Media, Art and Text; Nanoscience and Nanotechnology; Systems Modeling and Analysis; Rehabilitation and Movement Science; and Chemical Biology). As the chief academic and administrative officer of the College, I am responsible for the recruitment and retention of faculty, and all aspects of the academic programs of the College. I also serve as the primary advocate for the College, both internally and externally including fundraising, friend-raising, legislative and alumni relations.

Major Responsibilities/Accomplishments:

- o managed a complex budget of 69M with state appropriated funds and tuition funds, and additional 20M in development funds
- o funded research increased by 29%, from 17M to 22M
- o \$121M from Legislature in capital funds for new building
- o philanthropy: gift funds increased by 52%. 4M raised in FY18 in gift funds
- o supported/established new interdisciplinary degrees/programs in Addition Studies, LGBTQ studies, Data Science, Digital Sociology, Science Technology and Society, and Nanoscience.
- o led a strategic planning initiative for the College
- o created 30 new faculty lines (6 % increase in faculty)

- o launched interdisciplinary cluster hires, leading to three main themes: Migration studies, Big Data, and LGBTQ studies.
- o strengthened the College research infrastructure by adding a grants writer and internal research seed funds for faculty
- o promoted experiential learning with the new David Baldacci 1M gift to support real-world learning
- o promoted a student-centered and life learning- model of education, by strengthen advising (22 new advisors) and mentoring for career planning, and exposing undergraduate students to research-led training, internships, and capstone experiences. Increase in retention/graduation rates.
- o established the College Staff Council to promote staff governance, functioning on parallel with the College Faculty Council
- o established mentoring and advocacy groups for minority students
- o more than 30% of the College tenure-track hires from underrepresented groups
- o new longer term contracts for non-tenure track faculty lines, with opportunities for promotion

Head, Department of Statistics, NC State. 2011- 2016

The Department of Statistics at NC State is in the College of Sciences and in the College of Agriculture and Life Sciences. It is a top ranked Department and both the largest and one of the oldest in the nation with 45 faculty members, 14 staff members, 180 graduate students (primarily all PhDs), 175 undergraduate students, and new 64 students in the online MS program.

Major Responsibilities/Accomplishments:

- o managed a complex budget of 15M with state appropriated funds, grant funding, tuition funds, and endowment funds.
- o established an entirely online MS program in statistics
- o established two online certificates in statistics-education and applied statistics
- o established a new online graduate program on Data Science in partnership with the Computer Science Department.
- o launched an intense (face-to-face) 1 year MS program
- o increased rankings (becoming #12 by US World and News report)
- o funded research increased by 50%
- o size of the faculty increased by 30%,
- o increased number of endowments: 3 new named professorships, 3 named rooms, new fellowships for graduate students and undergraduate students
- o strengthened the Department research infrastructure by adding two new grant-support related positions: a new grants administrator and a research director
- o organized grant writing and student mentoring workshops for the Statistics faculty
- o established a new consulting center, the Laboratory for Collaborations and Statistical Innovation (L-CSI), to provide solutions to real-life statistical problems arising from various fields in industry
- o increased partnerships with industry through Graduate Industrial Traineeships (GIT) to build relationships between the department and local organizations or companies
- o established new practices and policies to facilitate life and work integration, in particular by introducing a new reassignment of duties policy due to family circumstances and a parental leave for graduate students

o promoted a student-centered and life learning- model of education, by strengthen advising (19 new advisors) and mentoring for career planning, and exposing undergraduate students to research-led training, internships, and capstone experiences, while introducing new courses in communicating science and research ethics for graduate students

Director, STATMOS. 2011- 2016.

The Network on Statistical Methods in Atmospheric and Oceanic Sciences is an NSF funded center to promote multi-institutional and interdisciplinary research and training at the interface of Statistics, Atmospheric and Oceanic Sciences, with 200 members and 21 institutions affiliated to it.

Major Responsibilities/Accomplishments:

- o managed a 5M budget
 - o coordinated statistical research across the 21 institutions based on issues in atmospheric and oceanic science
 - o developed a cadre of PhD students, postdocs and young faculty with substantial experience in doing cross disciplinary work with statisticians and physical, biological and social scientists
 - o organized a series of workshops and summer schools to disseminate the research ideas promoted by the network
 - o sponsored and launched a new international open-access journal, *Advances in Statistical Climatology, Meteorology and Oceanography* (ASCMO)
-

-

Invited Presentations

2018 Dalhousie Statistics Seminar, “Spatial modeling of adverse pregnancy outcomes”. Canada, January – Seminar.

New England Statistical Symposium, “Spatial tensor analysis for neuroimaging”. *Keynote Speaker*, April, MASS-Amherst

International Indian Statistical Association. “Brain imaging studies for drug addicts”. April 2018. University of Florida Gainesville, Florida. *Keynote Speaker*.

Big Data and Data Science for learning in the Digital World Symposium. “Tensor Analysis for neuroimaging data” June 2018. Madrid. *Keynote Speaker*.

International Society for Bayesian Analysis. “Bayesian Analysis for neuroimaging data”. June 2018. Edinburgh. *Keynote Speaker*

- Emory University– “Spatial regression for neuroimaging”- October –Georgia– Seminar.
- Old Dominion University – “Studying the brain of cocaine addicts”- October –Virginia– Seminar.
- 2017** “Human health Impacts of extreme weather and air pollution”, February. VSU, Petersburg, Virginia. *Keynote Speaker*
- “Nonparametric Spatial-Temporal Modeling of the Association between Ambient Ambient Air Pollution and Adverse Pregnancy Outcomes”, February -Seminar – Biostatistics Department, VCU. Richmond, Virginia
- ENAR 2017 Spring Meeting, March - Washington, DC
- John Hopkins Biostatistics – “Spatial association between preterm birth and pollution”- March – Baltimore, Maryland – Seminar.
- “Human health impacts of extreme weather and air pollution: what big data tells us”, Plenary Talk at Old Dominion University, April - Norfolk, Virginia
- Humphrey Fellowship Program Graduation Ceremony – April 30 – Keynote Speaker – Richmond, Virginia
- JSM Baltimore 2017, July – Invited Speaker- “Multivariate Functional Model for Hurricane forecasting”.
- Women Who Mean Business* –Speaker –Richmond, October 2017
- 2016** “Spatial temporal association between air pollution and adverse pregnancy outcomes“ March. National Institutes of Health. Washington, DC.
- “Spatial hurricane forecasting“ March. Workshop on Environmental Statistics. Ohio State University.
- “Work and Life Balance in Academia”. April. SAMSI workshop. *Keynote Speaker*.
- “ Statistics for Big Data“. May. A celebration of Statistics at Chicago (70 years celebration). University of Chicago. *Keynote speaker*.
- “Dynamic spatial temporal modeling of the impact of air pollution on adverse pregnancy outcomes“ June. The International Envriometrics Society, Glasgow, Scotland. *Keynote speaker*.
- “Functional spatial modeling of hurricane tracks.” August 2016 Joint Statistical Meeting (JSM). Chicago, IL.

“Forecasting of weather extreme events”. 2016 International Conference on Computational Statistics. August, Spain.

- 2015** Keynote speaker. “Human health impacts of climate change: what big data tell us.” The Environmental Design Research Association. 2015 Fall inaugural symposium. North Carolina

Keynote speaker. “Human health impacts of extreme weather and air pollution: what the data tell us.”

American Meteorological Society, 2015 Summer meeting. Raleigh, North Carolina.

Keynote speaker. “Spatial Nonparametric Modeling.” G70: A Celebration of Alan Gelfand. Duke University, Durham, North Carolina.

“Spatial likelihood methods for big data.” 2015 Joint Statistical Meeting (JSM). Seattle, Washington.

“Multivariate spatial modeling of soil trace elements.” Joint 24th International Chinese Statistical Association (ICSA) Applied Statistics Symposium and 13th Graybill Conference. Fort Collins, Colorado.

- 2014** Led a roundtable discussion on the topic: *Multivariate Spatial Modeling of Conditional Dependence to Study Arsenic Contamination in Drinking Water*. 2014 Joint Statistical Meeting (JSM). Boston, Massachusetts.

“Hurricane Forecasting using Multivariate Spatial Functional Linear Model.” International Society for Bayesian Analysis World Meeting (ISBA 2014). Cancun, Mexico.

“Nonstationary and Nonparametric Modeling of Multivariate Correlated Data via Kernel Processes Mixing.” 2nd International Society for Nonparametric Statistics (ISNPS) Conference. Cádiz, Spain.

Panelist. “Taking on Leadership while Keeping Research Vibrant.” Women in Statistics Conference. Cary, North Carolina.

Keynote speaker. “Nonparametric spatial-temporal modeling of the association between ambient air pollution and adverse pregnancy outcomes.” 8th Annual Probability & Statistics Day. University of Maryland, Baltimore County, Maryland.

“Air Pollution Metric Analysis while Determining Susceptible Periods of Pregnancy for Low Birth Weight and Birth Defects.” Eastern North American Region, International Biometric Society (ENAR). Baltimore, Maryland.

“Statistical Methods for Large Environmental Datasets.” 2014 AAAS Annual Meeting. Chicago, Illinois.

- “Multivariate Spatial-temporal Model for Birth Defects and Ambient Air Pollution Risk Assessment.” Brown University Distinguished Lecture Series. Providence, Rhode Island.
- 2013** “Statistics: The Power of Transforming Massive Data into Knowledge.” ENCORE. Raleigh, North Carolina.
- Guest Lecturer. STATMOS node. Collaborator. International Year of Statistics. Valladolid, Spain.
- “The Spatial Structure of Microscale Reactivity of Arsenic in Soil Material.” Agronomic and Environmental Studies ASA-CSSA-SSSA 2013. Tampa, Florida.
- “Calibration of deterministic numerical models using nonparametric spatial density functions.” The John C. & Susan S.C. Wierman Lecture Series. Johns Hopkins University, Baltimore, Maryland.
- “Opportunities for Geospatial Methods in Federal Surveys.” National Institute of Statistical Sciences (NISS) Workshop. Washington, D.C.
- Led a roundtable discussion on the topic: *The role of a statistician in interdisciplinary teams and funding opportunities*. 2013 Joint Statistical Meeting. Montreal, Canada.
- “Spatial temporal analysis of health effects associated with sources and speciation of fine PM.” RTI.
- “Impact of heat waves on mortality.” 23rd Annual Conference of The International Environmetrics Society (TIES). Anchorage, Alaska.
- “Spatial calibration of deterministic computer models.” Plenary speaker. Spatial Statistics 2013 Conference. Ohio State University, Columbus, Ohio.
- “Spatial modeling of the impact of pollution on premature birth outcomes.” Eastern North American Region, International Biometric Society (ENAR), Orlando, Florida.
- “Balancing life and a career in academia.” Distinguished speaker. ADVANCE program. Kansas State University. Manhattan, Kansas.
- “Spatial circular models for wind fields.” SAMSI-SAVI workshop on Environmental Statistics. Research Triangle Park, North Carolina.
- 2012** “Impact of extreme temperatures on birth outcomes.” American Public Health Association 2012 Annual Meeting. San Francisco, California.
- “Calibration of deterministic numerical models.” American Statistical Association (ASA) Section on Statistics and the Environment (ENVR) workshop. Raleigh, North Carolina.

- “Balancing life and a career in academia.” Plenary speaker. National Science Foundation (NSF) ADVANCE conference. Raleigh, NC. September 2012.
- “Impact of climate change on human health.” Eastern North American Region, International Biometric Society (ENAR), Washington, D.C.
- Plenary speaker. 100th year celebration of the Girl Scouts. Raleigh, North Carolina.
- “Do we know too much to know anymore?” 2012 Southern Regional Council on Statistics (SRCOS) Summer Research Conference. Jekyll Island, Georgia.
- “Calibration of deterministic models.” 8th International Purdue Symposium on Statistics. Purdue University, West Lafayette, Indiana.
- “Spatial-Temporal Modeling of the Critical Windows of Air Pollution Exposure for Preterm Birth.” 2012 Joint Statistical Meeting (JSM), San Diego, California.
- 2011** “Spatial modeling of the impact of climate change of ozone levels.” Keynote speaker. Workshop on Mathematics in the Geosciences. Northwestern University, Evanston, Illinois.
- “Impact of Pollution on preterm birth.” Eastern North American Region, International Biometric Society (ENAR). Washington, D.C. [Also presented a short course and led a luncheon discussion.]
- “Spatial nonparametric models for the impact of pollution on adverse pregnancy outcomes.” 2011 Joint Statistical Meeting (JSM). Miami, Florida.
- “Spatial models for the impact of climate change on ozone levels.” Plenary speaker. International Biometric Society (IBS). Sidney, Australia. [Also presented a workshop on the topic: *Spatial analysis of public health data: a practical introduction with geocoded and areal data.*]
- “Nonparametric models for spatial extremes.” 2nd Institute of Mathematical Statistics (IMS), Asia Pacific Rim Meeting. Omiya Sonic City, Japan.
- “Clearing the air.” ENCORE (extension and continuing education). Raleigh, North Carolina.
- “Calibration of deterministic models.” Statistical Methods for Very Large Datasets Conference 2011. Baltimore, Maryland.
- “Nonparametric spatial models for extreme temperatures.” 42nd Symposium on the Interface of Computing Science and Statistics 2011 (Interface 2011). Cary, North Carolina.
- 2010** “Spatial analysis of images.” Workshop: From Imaging to Understanding:

Visualization and Smart Analysis. Duke University, Durham, North Carolina.

Invited speaker. Extreme Events in Climate and Weather - An Interdisciplinary Workshop. Banff International Research Station, Alberta, Canada.

“Nonparametric Spatial Models for Extremes: Application to Extreme Temperature Data.” 2010 Joint Statistical Meeting (JSM). Vancouver, British Columbia, Canada.

Plenary speaker. International Workshop in Applied Probability (IWAP 2010). Madrid, Spain.

“Bayesian Quantile Regression: Application to Study the Impact of Climate Change on Tropospheric Ozone.” International Workshop on Spatio-Temporal Modelling (METMA V). University of Santiago de Compostela, Spain.

Invited speaker, Institute for Pure & Applied Mathematics (IPAM) Workshop IV: Data Hierarchies for Climate Modeling. Los Angeles, California.

2009 “Spatial modeling of health effects from pollution.” 2009 Joint Statistical Meeting (JSM). Washington, D.C.

“Nonparametric spatial models for extreme temperature.” Graybill International Conference on Extreme Value Analysis VIII, Fort Collins, Colorado.

“Bayesian spatial variable selection: applied to pregnancy data.” Eastern North American Region, International Biometric Society (ENAR). San Antonio, Texas.

2008 Invited discussant: *Get involved in the research on environmental statistics going on in RTP!* 2008 Joint Statistical Meeting (JSM). Denver, Colorado. August 2008.

“Bayesian variable selection for spatially-varying coefficient regression: application to physical activity in prenatal women.” 19th Annual Conference of The International Environmetrics Society (TIES), Kelowna, Canada.

“Bayesian variable selection for spatially-varying coefficient regression: application to physical activity in prenatal women.” International Indian Statistical Association (IISA) Conference. University of Connecticut, Storrs, Connecticut.

2007 “Nonparametric spatial models.” 56th Session of the International Statistical Institute, Lisbon, Portugal.

“Nonparametric models for spatial data.” International Conference on Advances in Interdisciplinary Statistics and Combinatorics. Greensboro, North Carolina

“Uncertainty analysis of air quality deterministic models.” EPA regional meeting. North Carolina.

- “Likelihood approximation for spatial temporal processes.” Eastern North American Region, International Biometric Society (ENAR). Atlanta, Georgia.
- “Spatial temporal modeling framework for hurricane wind fields.” 10 CLAPEM: Latin American Congress of Probability and Mathematical Statistics. Lima, Peru.
- “Combining data and numerical models for hurricane forecasting.” 2007 Joint Statistical Meeting (JSM). Seattle, Washington.
- 2006** “Spatial temporal covariance models.” 26th European Meeting of Statisticians. Torun, Poland.
- “Should ultrafine particulates be regulated?” Annual Conference of The International Environmetrics Society (TIES). Kalmar, Sweden.
- “Spatial association between speciated particulate matter and mortality.” Bayes Workshop. University of Warwick. Coventry, United Kingdom.
- “Dynamic priors for space-time modeling.” Valencia/ISBA Eighth World Meeting on Bayesian Statistics. Benidorm, Spain.
- “Data assimilation for hurricane forecasting.” Eastern North American Region, International Biometric Society (ENAR). Tampa, Florida.
- 2005** “Probabilistic methods for environmental exposure risk analysis.” Society for Risk Analysis (SRA) Annual Meeting. Orlando, Florida.
- “Multivariate spatial-temporal models for wind fields.” Royal Statistical Society Environmental Statistics Section workshop. London, United Kingdom.
- “The use of statistics within a regulatory framework.” LPR (Law, Probability and Risk) Conference. Edinburgh, United Kingdom.
- “Bayesian hierarchical models for association between pollution and mortality.” Eastern North American Region, International Biometric Society (ENAR). Austin, Texas.
- “Combining numerical models and spatial data.” 2005 Joint Statistical Meeting (JSM). Minneapolis, Minnesota.
- “Combining numerical models and data for wind forecasting.” 2005 Joint Statistical Meeting (JSM). Minneapolis, Minnesota.
- “Likelihood approximation methods.” 2005 Joint Statistical Meeting (JSM). Minneapolis, Minnesota.
- “New models for asymmetric spatial processes.” 2005 Joint Statistical Meeting (JSM). Minneapolis, Minnesota.

“Combining disparate spatial data.” Royal Statistical Society. London, United Kingdom.

Probabilistic Risk Assessment (PRA): Bridging Components along the Exposure-Dose-Response Continuum workshop. Sponsored by ACS, SOT, and U.S. EPA. Washington, DC.

Grants Funded

NSF Fuentes (PI). NSF 16-594. 2019-2023. ADVANCE: Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers. Institutional Transformation. “*Overcoming Immunity to Change (ITC): ADVANCE IT VCU*”
Budget: \$3M.

EPA 2014-2017, Fuentes (co-PI)

“Characterizing the Determinants of Vehicle Traffic Emissions Exposure: Measurement and Modeling of Land-use, Traffic, Emissions.” Budget: \$762k.

NIH/NCATS – 2017-2022–Center for Clinical Translational Research, Fuentes co-PI. (FG Moeller PI). “Clinical Translational Science Award”. Budget 21.5M

NSF DMS-1406016. 2014-2019, Fuentes (PI)

“Spatial temporal models and methods for big nonstationary multivariate data on Euclidean spaces and the sphere.” Budget: \$201k.

NSF EAR-1349374 2014-2019, Dean Hesterberg and Montse Fuentes (Co-PIs)

“Microscale Reactivity of Trace Elements in Complex Geochemical Systems.” Budget: \$498k.

NSF DMS-1107046. 2011-2019, Fuentes (PI), Guttorp (UW) and M. Stein (UC) (Co-PIs)

"Collaborative Research: RNMS Statistical methods for atmospheric and oceanic sciences." Budget: \$5,000,000.

NSF 2013-2018, Fuentes (Co-PI)

“Promoting Academic and Career Success for Raleigh Future Scholars at NC State.” Budget: \$634k

NOAA 2011-2014, Fuentes (Co-PI)

“Incorporating Climate Change Effects into Next-Generation Coastal Inundation Maps: An Integrated Approach.” Budget: \$390k.

RISF 2013-2015, Dean Hesterberg and Montse Fuentes (Co-PIs)

“Development of Stochastic/Mechanistic Models for Predicting Environmental Impacts of Toxic Trace Elements.” Budget: \$23k.

Centers for Disease Control and Prevention (CDC) 2014-2019

The North Carolina Center for Birth Defects Research and Prevention
Andrew Olshan (PI), Fuentes is an Institutional PI (summer support)

NIH- R01 Fuentes (PI, in collaboration with UNC-Biostatistics and Duke). 2012-2015

“Space-time Modeling for Linking Climate Change, Pollutant Exposure, Built Environments, and Health Outcomes.” Budget: \$1,094,446.

NIH R13. Travel awards. Fuentes (PI)

This award provides 6 travel awards for students and junior investigators attending the IMS-ISBA 2011 conference in Utah.

NSF DMS. CMG 2009-2011, Fuentes (PI)

“Multivariate nonstationary spatial extremes in climate and atmospheric.”

Co-PIs: Alan Gelfand (Duke), Peter Guttorp (UW), Doug Nychka (NCAR) and Kate Calder (OSU). Consultant: Richard Smith (UNC). L. Mearns (NCAR), and Rick Katz (NCAR)

NASA 2009-2011. Fred Bingham (Prof. of Oceanography, UNCW) and Fuentes (PIs)

“Statistical Validation of Sea Surface Salinity Measurements from Aquarius.”

Budget: \$150k.

EPA- STAR 2009-2012, Fuentes (PI)

“Spatial Temporal Analysis of Health Effects Associated With sources and Speciation of Fine PM.” Total Budget: \$893k.

NIH- R01 Starting Jan 2008, Fuentes (PI, 30% of time + a graduate student)

“A Spatial temporal modeling approach for Environmental Epidemiological Data.”

Total Budget: \$1,086,133.

NSF August 2007. Fuentes (PI)

Award for 2,000 from the associated for women in Mathematics. Budget: \$2k

Centers for Disease Control and Prevention (CDC) 12/01/2008 – 12/01/2013.

The North Carolina Center for Birth Defects Research and Prevention

Andrew Olshan (PI), Fuentes is a Co-PI (summer support). Budget: \$ 6,321,731.

GIT: Graduate industrial trainee program. GIT with Waratah Corporation under EPA Prime contract EP-D-06-072, Fuentes (PI)

“Impact of climate change on future ambient ozone values.”

Student supported: Jingwen Zhou (advisor: Fuentes). Research conducted in collaboration with EPA. This GIT provides full support for the student.

Center for Environmental Health and Susceptibility, UNC. August 2007. A. Herring and M. Fuentes (PIs)

“New Statistical Approaches for Combining Multiple-Source Environmental Data.”

(Summer 2007 support for Fuentes)

NSF-DMS. 2007-2010. Fuentes (PI). Co-PIs: Lian Xie (Professor of Oceanography) and

Brian Reich (postdoc). “Multivariate space-time models and methods to combine large disparate spatial data and numerical models.” Budget: \$260k.

NSF-DMS. 2004-2007, Fuentes (PI)

“Estimation, Modeling and prediction of nonseparable and nonstationary space-time processes.” Budget: \$112k.

NSF-DMS. 2000-2004, Fuentes (PI)

“Spatial Modeling, Analysis and Prediction of Nonstationary Environmental Processes.”
Budget: \$150k.

NSF-DMS. 2005, Fuentes (PI)

Travel award for the IMS-ISBA conference (Italy) to support student traveling. Budget: \$10k.

NSF-DMS. 2003, Fuentes (PI)

Travel award for the ISI Environmental and health statistics (Spain) to support student traveling. Budget: \$9k

NSF-DMS. VIGRE. 2005-2008, Fuentes (Co-PI)

Integrated and Mentored Program of Research and Education in Statistical Sciences.
Budget: \$3,807,965.

NSF-DMS. 2001-2002. Bloomfield (PI), Fuentes (Co-PI)

Scientific Computing Research Environments for the Mathematical Sciences. Budget \$22k.

NIH. 2003, Fuentes (PI)

Travel award for the ISI international conference on Environmental Statistics and Health.
\$9,000. To support student/junior investigators traveling. Budget: \$9k.

EPA 2003, Fuentes (PI)

Travel award for the ISI international conference on Environmental Statistics and Health to support student/junior investigators/invited speakers.

Center for Environmental Health and Susceptibility, UNC. 2007. A. Herring and M. Fuentes (PIs).

“New Statistical Approaches for Combining Multiple-Source Environmental Data.”
(Summer support for Fuentes)

EPA 2001-2005, Fuentes (PI), David Higdon (Co-PI).

“Statistical Methodology for Spatial Modeling and Interpolation of Air and Deposition Pollutants.” Budget: \$470k.

DOD 2001-2004, Fuentes (PI), J. Davis (Co-PI)

“The development of a model for predicting the wind field over the Chesapeake Bay.”
Budget: \$230k.

NOAA. 2001-2003, Fuentes and Morrison (PIs)

“Climate Scale Sea-Surface-Temperature Analyses.” (Support for a graduate student).
Budget: \$100k.

NOAA. 2003 – 2007, Pietrafesa (PI) Xie and Fuentes (Project Leaders)
(1 month of summer salary and 1 graduate student for Fuentes)
“Climate and Weather Impacts on Society & the Environment” Budget: \$3,000,000.

Faculty Research and Professional Development Fund, NC State. 2001, Fuentes (PI)
“New methodology for spatial interpolation of nonstationary environmental processes.”
Budget: \$5k.

Alfred P. Sloan Foundation. 2002-2003, Fuentes (PI)
Budget: \$29k.

EPA. 1999-2001, Fuentes (PI)
“Spatial structure of dry deposition.” Budget: \$62k/year for salary + \$5k/year for travel.

EPA

1. Coop with EPA to support a PhD students working with Fuentes (Man Sik Park).
Jan. 2004-Dec 2005.
2. Coop with EPA to support a PhD student working with Jungsoong Choi.
June 2005-June 2006.
3. Coop with EPA to support a PhD student working with Fuentes (Hae-Ryoung Song).
May 2004-Dec 2006.

PhD Students Supervised

PhD Thesis Students (Fuentes chair of thesis committee)

1. Jifang Zhao. “Dimension reduction for brain imaging data”. Expected graduation date 2019. VCU
2. Wei Yang. “Multivariate analysis of fMRI twin data”. Expected graduation date 2020. VCU
3. Halley Brantley. “Spatial source apportionment for air pollution”. Expected graduation: 2019.
4. Amanda Bell. “Spatial spectral modelling”. Graduated 2019.
5. Joanne Lo. “Spatial extremes”. Expected graduation date: 2019.
6. An-Ting Jhuang. “Data assimilation”. Graduated 2018
7. Marcela Cordoba. “Spatial Likelihood approximations”. Graduated 2017.
8. Luke Smith. “Multivariate spatial quantile regression. Graduated May 2014.
9. Laura Boehm. “Variable selection models for spatial data.” Graduated May 2013.
Assistant Professor at St. Ola College, MN.
10. Darryl Cooney, Ph.D. “Methods to approximate the spatial likelihood of nonstationary processes”. On leave. GIT at Scimetrika.
11. Danny Modlin. Probabilistic hurricane forecasting. Expected graduation date: May 2015.
(supported by Fuentes’s NSF award). Started full-time at SAS in April 2011.

12. Josh Warren. "Spatial nonparametric modeling of the association between exposure to air pollution and birth outcomes." Graduated July 2011. (supported by Fuentes's STAR-EPA award). Postdoc at UNC-Biostat starting July 2011.
13. Jingwen Zhou. Topic: Spatial quantile nonparametric regression, in the context of air atmospherics. Graduated May 2012. (supported by Fuentes's NASA award)
14. Eric Kalendra. "Space-time modeling of health effects due to exposure to particulate matter." Graduated May 2010 (supported by Fuentes's NIH award). Currently at George Mason University.
15. Shenek Heyward. "Spatial temporal modeling of temperature trends (modeling climate change)". Graduated December 2010 (supported by NOAA award).
16. Tsuei-long Chen. Started to work on his dissertation under Fuentes's supervision on Jan 07. Topic: Multivariate spatial temporal models to study association between mortality and speciated particulate matter.
17. Jungsoon Choi. "Multivariate space-time models for air pollutants." Graduated December 2008. Assistant Professor, Department of Biostatistics, College of Medicine, Korea University, Seoul, South Korea.
18. Liyun Ma. "Spectral likelihood methods for incomplete large spatial datasets." Graduated August 2006. Currently working as a research analyst at the headquarters of Capital One financial corporation in Mclean, VA.
19. Kristen M. Foley. "Data assimilation methods for space-time processes." Graduated August 2006. Currently a statistician (permanent position) at U.S. EPA, RTP, NC.
20. Hae-Ryoung Song. "Spatial-temporal hierarchical Poisson model to study association between speciated fine particles and human health effects from pollution." Graduated May 06. Currently a Postdoc working with Andrew Lawson at University of South Carolina.
21. Man Sik Park. "Test for axial and diagonal symmetry of space-time processes". Graduated May 06. Initially went to a postdoc at Colorado State University working with Dr. Hoeting.
22. Li Chen. "Spatial-temporal non-separable models for wind fields." Graduated May 2004 (co-advisor: J. Davis from MEAS). Initially went to a postdoc at the University of Chicago working with Dr. M. Stein.
23. Prashenn Agarwal. "Bootstrap for spatial data." Graduated March 2003. Research biostatistician at Bristol-Myers Squibb, Pharmaceutical Research Institute, (co-advisor: M. Overton from Civil Engineering).
24. Jarrett Barber. "Modeling and prediction of non-stationary environmental processes." Graduated May 2002. Assistant Professor at Montana State University School of Mathematical and Statistical Sciences, Arizona State University.
25. Hon-Jung Kim, Ph.D. "Spectral Analysis with Spatial periodogram and Data Tapers." PhD. August 2000. She is currently an assistant professor (tenure-track) at University of Oulu (Finland), (co-advisor: Dennis Boos).

Postdocs mentored by Fuentes

1. Abdolnasser Sadeghkhanian supported by NIH (2019-2020).
2. Hossein Rekabdarkolaei, supported by NSF (2017-2019). Currently tenure-track faculty at South Dakota University.

3. Yen-Ning Huang supported by NIH (2015-2017). Currently faculty at Indiana University.
4. Kimberly Kaufeld supported by NIH and NSF (2014-2016). Currently at Los Alamos.
5. Maria Terres supported by STATMOS-NSF and STAR EPA award (2014-2015). Currently senior scientist at Climate Corporation.
6. Joe Guinness, postdoc supported by STATMOS-NSF award (2012-2013). Currently a tenure-track faculty member at NC State.
7. Elizabeth Mannshardth, postdoc supported by STATMOS-NSF award (2012-2014). Currently scientist at the Environmental Protection Agency.
8. Dorit Hammerling, postdoc supported by SAMSI (2012-2014). Currently scientist at the National Center for Atmospheric Research.
9. Ying Sun. Postdoc supported by SAMSI and STATMOS (2011-2013). Currently assistant Professor (tenure-track) at Ohio State University, Department of Statistics.
10. Howard Chang, postdoc (2009-2011). Currently assistant professor tenure-track at the Biostatistics Department, Emory University.
11. John Henry, postdoc (July 2008-august 2009)
12. Brian J. Reich, PhD from Biostatistics, University of Minnesota. Postdoc (2006-2008) Faculty position at NC State (tenure-track).
13. Guillaume Vernieres, Ph.D. in oceanography from Oregon State University. Postdoc 2006-2007.

Undergraduate students mentored by Fuentes

Kaili Stevens – supported by International Biometrics Society

Katrina Myzgayeva – supported by STATMOS center grant.

Katelyn Kilmer – supported by STATMOS center grant.
